Prevention Illuminated

In Our Era of Dental Prevention

Advanced Dental Technologies
85 Maple Street, 2nd Floor
Stoneham, MA 02180

Course Overview

This course is designed to empower dental professionals to elevate the level of caries prevention they provide to their patients by adopting cutting-edge, patient-centered approaches. Participants will learn how to create tailored prevention plans, moving beyond traditional methods to incorporate the latest advancements in dental care. You'll gain the expertise to select and recommend evidence-based products that best meet your patients' unique needs, ensuring they receive the highest standard of care.

Learning Objectives

- Develop a practice-oriented approach to integrating preventative dentistry into daily clinical routines for elevated standards of care.
- Learn customized caries prevention strategies that address the unique needs of each patient, incorporating both traditional and modern preventive methods.
- Explore and integrate the latest technologies and innovations in preventive dentistry, enhancing patient experiences and improving clinical results.
- Apply leadership skills to master preventive strategies that contribute to long-term oral health and professional fulfillment.

Our Speakers

Laura Bettencourt, BSDH, RDH
Danielle Avila, BSDH, RDH

Danielle Avila, BSDH, RDH and Laura Bettencourt, BSDH, RDH possess over 15 years of clinical experience in the New England Area. They are the co-founders of L'Diamante Dental Coaching. Their expertise lies in fostering human connections, building relationships, advancing careers, and leading teams.

As mindset hygiene career coaches they take great joy in guiding and empowering their clients to attain the confidence and clarity they desire. Both Danielle and Laura are deeply committed to education, mentorship, and promoting a positive attitude in all aspects of life.
